PAINT YOUR PEBBLE

Paint your pebble using acrylic paint and different sized paint brushes to add detail. Use two layers of paint or more if needed to make sure the colour is thick enough. Make sure you leave each layer to dry before adding another.

SEAL AND PROTECT YOUR PEBBLE

Once your pebble is fully dry apply a few layers of clear glue or sealant spray to your pebble. Leave each layer to dry before adding another. This step isn't necessary but it will ensure the protection and longevity of the paint.
